

Internal Financial Control Policy

Responsible Officer	Chief Executive Officer
Relevant Delegations	Director Corporate Services
Legislation and References	Local Government Act 199 Local Government (Financial Management Regulations 2011

1 Introduction

Internal financial controls are part of Council’s corporate governance framework and covers areas such as strategic management, business development, project management, finance, etc. It comprises procedures to mitigate risks and provide reasonable assurance that operations are efficient and effective, assets are safeguarded, legislation and Council policies/rulings are complied with and financial reporting is accurate and reliable.

Examples of the types of activities addressed are accounts payable, payroll, budgeting, management reporting, banking and contracting. Financial internal controls are critical to effective risk management of a Council’s operations and promote the achievement of its goals and objectives.

Council is committed to maintaining an effective Internal Control environment.

2. Policy Objectives

Council’s objectives of this Policy are:

- a) Risks relating to the stewardship of public resources are adequately managed through effective internal controls.
- b) A framework for an effective internal control system that conveys to managers that they are responsible for ensuring that internal controls are established, documented, maintained and adhered to across the Council and to all employees that they are responsible for adhering to those internal controls.
- c) To ensure the propriety of transactions, information integrity, compliance with regulations and achievement of Council objectives through operational efficiency.

Internal Financial Control Policy

3. Legislative, Corporate Policy and Standards Requirements

Local Government Act 1999 - Sections 125, 126, 129 & 130

Local Government (Financial Management) Regulations 2011, Regulation 14 (e)
 Better Practice Model – Internal Financial Controls For South Australian Councils
 Australian/New Zealand Standard AS/NZS ISO 31000:2018

4. Risk Management Approach

Council will maintain an internal control framework, which will be based upon a proactive risk management culture. The types of risks identified in the framework will be those which may prevent Council from meeting its objectives or not maximising its opportunities.

One of the risk areas covered by Council is financial management, for which internal controls will be identified, documented and managed.

It is recognised that all risks cannot be eliminated, however the internal controls applied should reduce the likelihood of the risk occurring to within acceptable limits of risk.

Council will develop a culture that emphasises integrity, ethical values and competence.

Internal Financial Control Policy

5. Roles and Responsibilities

The Council is responsible for approval of the Internal Financial Control Policy and the Chief Executive Officer for developing and maintaining an internal financial control framework, that ensures Council objectives are achieved efficiently and effectively. Updates on changes to the framework will be presented to the Audit Committee.

The Chief Executive Officer and principal member of Council must also sign the financial statements in regard to internal financial controls as required by Local Government (Financial Management) Regulations 2011 Regulation 14.

The Senior Management Team will adopt a risk management approach to identifying and assessing risks and apply cost/benefit analysis in the development of internal financial controls.

Council employees will conduct their duties in accordance with internal control policies procedures and practices of Council.

6. Elements of an Internal Financial Control Framework

The essential elements of an effective internal financial control framework are:

- Structure and culture of Council;
- Delegations of Authority;
- Policies and procedures;
- Trained and properly qualified staff;
- Information Technology controls;
- Review process e.g. internal audit;
- Liaison with auditors and legal advisors;
- Senior Management compliance assurance; and
- Risk identification and assessment.

7. The Risk Management Process

The process followed by Council in developing the framework appears below in diagrammatic form extracted from Australian/New Zealand Standard AS/NZS ISO 31000:2018

Establish Goals & Context - Effective risk management requires a thorough understanding of the goals and context of Council to assist in establishing the assessment criteria for risk management.

Identify Risks - Identify the risks most likely to impact on the achievement of Council's objectives.

Internal Financial Control Policy

Analyse Risks - Assess effectiveness of risks in terms of likelihood and consequence to identify the current risk level.

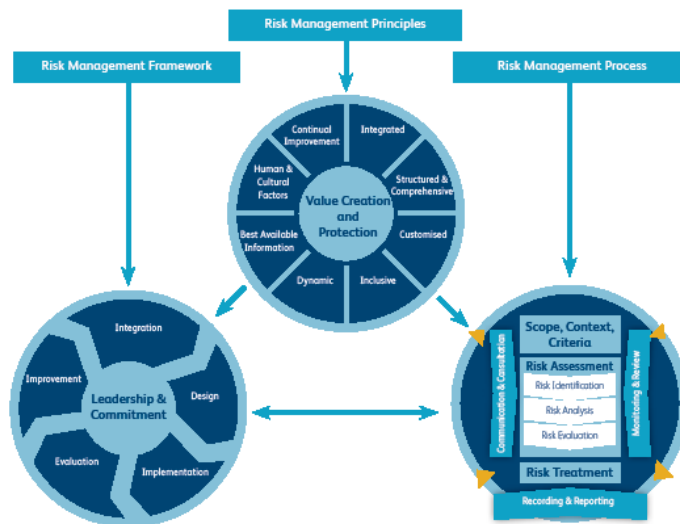

Evaluate Risks - Determine whether the risks are acceptable or unacceptable and document findings.

Treat Risks - Treat risks by one of the following methods - discontinuing activity that generates it, reducing likelihood of occurrence, reducing consequence of occurrence, transfer the risk or retain the risk.

Consultation/Communication - These are important elements to ensure that all stakeholders understand why actions are required. These stakeholders include all staff and Council Members.

Monitor/Review - Responsible officers must be identified for each internal control and provide feedback to managers on progress with controls. The Managers monitor the effectiveness of risk treatments and report progress to the Senior Management Team and the Audit Committee at regular intervals.

Principles, framework and risk management process from ISO 31000

ISO 31000 states that the guidelines should be used by people who create and protect value in organisations by managing risks, making decisions, setting and achieving objectives and improving performance. The guidelines are applicable to all types and sizes of organisations and relevant to all external and internal factors and influences. They also state that managing risk assists organisations in setting strategy, achieving objectives and making informed decisions. Managing risk is part of governance and leadership and is fundamental to how organisations are managed at all levels.

Internal Financial Control Policy

8. Database of Internal Financial Controls

The database of internal financial controls will be reviewed on a rolling basis such that each control is reviewed over a 12 month period to ensure all controls are current and appropriate and the Senior Management Team and the Audit Committee will be informed of the outcome of each review and updated regularly on progress with action plans identified during the reviews.

9. Support with Development of a Risk Management System

To assist in the ongoing improvement of a risk management system the Local Government Association's Better Practice Model – Internal Financial Controls for South Australian Councils will be reviewed when undertaking a review, to identify the current recommended risk management database of internal controls and supporting documentation.

10. Review & Availability

This policy will be reviewed every four years, or as required.

The public may inspect a copy of this policy without charge at the Council offices during office hours and may obtain a copy for a fee fixed by Council

The policy is also available on Council's website www.claregilbertvalleys.sa.gov.au
