Applicable Legislation	Local Government Act, 1999

Entranceways Policy

Where a person requires a communication (entranceway) with any street or road, the Council may permit it to be constructed under the superintendence and to the satisfaction of an officer authorised for that purpose.

In all such cases the cost of such works shall be borne by the applicant and must meet all legislative design changes.

All applications must be lodged with Council on the authorised SF031 – Application to Alter a Public Road. These forms must be completed and forwarded with a plan of the proposed entranceway to the Manager Development Infrastructure & Environmental Services for approval.
